

Application No.: 09/555,349

REMARKS

Claims 29-32 are pending in the subject application.

Claims 29-31 are currently canceled. Claim 32 has been allowed.

New claim 33 has been added. Claim 33 is identical to canceled claim 30, except that the dependency of the claims has been changed so that the claim depends from allowed claim 32. Support for new claim can be found throughout the specification as filed, including inter alia at Example 2 (e.g., page 41, lines 20-24). Accordingly, no new matter has been added by the addition of new claim 33, and claim is believed to be in condition for allowance as a result of its dependence from allowed claim 32.

CONCLUSIONS

In light of the above remarks, applicant submits that the subject patent application is in condition for allowance and such allowance is earnestly solicited.

If any small matter should remain outstanding after the Patent Examiner has had an opportunity to review the above Remarks, the Patent Examiner is respectfully requested to telephone the undersigned patent attorney in order to place the application in condition for allowance.
